Do the following operations of above database:

- I. calculate **obtain marks?**
- II. Calculate **percentage** using average function.
- III. Calculate Grade for following criteria:
Per> 80 -> Excellent
70-80 -> Distinction
60-70 -> First
50-60 -> Second
40-50 -> Third
<40 -> Poor marks

iv. Calculate result using if **marks obtain is > 350 Pass otherwise Fail**

v. finds out **RANK**

vi. If student Pass to Highlight cell color is Green and Fail cell color is highlight Red using **conditional formatting**
